## EXPERIENCE

### Nerdery, Edina, MN

*Software Engineer* - July 2019 – November 2024

- Developed and maintained responsive web applications with React, Next.js, TypeScript, and Tailwind CSS, prioritizing accessibility and user experience
- Collaborated with designers and backend teams to build scalable applications, leveraging Gatsby and Drupal integration as needed
- Enhanced frontend performance through optimization, reusable code, and accessibility best practices using React Testing Library and Jest

### Antech Systems, Chesapeake, VA

*Frontend Developer* - April 2019 – July 2021

- Developed and maintained proprietary applications for the US Navy's 3M program, adhering to user story requirements
- Executed unit tests and resolved code defects to ensure application reliability
- Collaborated with project management to define user requirements and support full lifecycle development

### Trader Interactive, Norfolk, VA

*Web Builder* - September 2016 – April 2019

- Designed and developed WordPress websites using HTML, CSS, and JavaScript, based on mockups created in Adobe Creative Suite
- Led design team efforts, ensuring progress and adherence to coding standards and style guides
- Streamlined processes to improve team efficiency and project delivery
